Community Leadership Initiatives

The Foundation established the **Urgent Needs Fund** to provide support to area nonprofit organizations, schools, and governments on the front lines serving those most impacted by the pandemic. So far, the Fund has awarded \$110,000 in grants.

Economic Development

Investing in local projects plants the seeds for Oceana's future. The Foundation has partnered with a variety of organizations to support

Community Development projects:

- Community Assessments in Shelby, Pentwater & Hesperia
- Shelby Township Community Park
- West Michigan Research Station
- New Daycare Facilities in Shelby & Walkerville
- Pentwater-Hart Trail
- Pentwater Historical Society Building Expansion
- Getty Park Renovation
- Oceana County Fair Grandstand & Fairgrounds Renovation

Read Early. Read Often. (RERO) was developed to support early literacy skills for all Oceana children. On average children from low income families show far less developed skills in key areas necessary for success in kindergarten and beyond. Introducing more books into local homes is an inexpensive, effective way to help our children succeed. In 2021, 7,714 books were distributed throughout Oceana County!

The **Oceana College Access Network (OCAN)** was formed to help alleviate poverty, improve our local workforce, and build a vibrant economy. OCAN is working to ensure all students, including adult learners, are prepared for and have access to post-secondary education and training - **a decade of impact!**
